Subject: Region 5/IDEM Monthly Call - 8/20/2018 Agenda
Attachments: 2018 August PSD rpt.pdf

Today's call will be at 11:00 AM Eastern.

Call-in Number: Ex. 6 Personal Privacy (PP)
 Conference Cod

- 1.) Upcoming Permits
 - a. PSD Permits
 - b. Other complex/public interest permits
 - i. Indiana Harbor Coke Company
 - ii. POET Biorefining - Shelbyville
- 2.) Transwheel Alternative Control
- 3.) EPA-Reviewed Permits
- 4.) State Consistency Topics
 - a. **Proposed Amendments to the NESHAP for Clay Ceramics Manufacturing:** EPA proposed amendments to the National Emission Standards for Hazardous Air Pollutants for Clay Ceramics Manufacturing (Clay Ceramics Manufacturing NESHAP). These proposed amendments will offer additional flexibility to the industry, while maintaining the emission and operational standards of the 2015 final rule. The Clay Ceramics Manufacturing NESHAP includes provisions for two distinct subcategories, including ceramic tile (e.g., pressed floor tile, pressed wall tile and other pressed tile), and sanitaryware (e.g., sinks and toilets). EPA is proposing revisions to the Clay Ceramics Manufacturing NESHAP based on information provided by industry stakeholders in a petition for reconsideration filed on December 23, 2015, and other information collected by EPA. Our response to the petition indicated we would evaluate any additional information provided by the stakeholders and evaluate whether amendments to the rule are warranted.

 A prepublication version of the notice and a summary fact sheet are available at <https://www.epa.gov/stationary-sources-air-pollution/clay-ceramics-manufacturing-national-emission-standards-hazardous>.
 - b. **Proposal for RTR for Surface Coating of Metal Furniture, Large Appliances and Printing, Coating, and Dyeing of Fabrics and Other Textiles:** The EPA is proposing to amend three national emission standards for hazardous air pollutants (NESHAP) for surface coating operations: the 2002 Surface Coating of Large Appliances NESHAP; the 2003 Printing, Coating, and Dyeing of Fabrics and Other Textiles NESHAP; and the 2003 Surface Coating of Metal Furniture NESHAP. The proposed amendments would enhance the effectiveness of the rule by improving compliance with the existing requirements and increase efficiency of data submissions. This action includes emission units covered under these NESHAP, including all

coating operations; coatings conveyors and transfer equipment; and storage, mixing and waste containers.

A prepublication version of the notice and a summary fact sheet are available from these websites:

- i. <https://www.epa.gov/stationary-sources-air-pollution/printing-coating-and-dyeing-fabrics-and-other-textiles-national>
 - ii. <https://www.epa.gov/stationary-sources-air-pollution/surface-coating-large-appliances-national-emission-standards>
 - iii. <https://www.epa.gov/stationary-sources-air-pollution/surface-coating-metal-furniture-national-emission-standards>
- c. **US EPA Permit Review Strategy and Common Permit Issues:** Wednesday, August 29, 2018; 10:00 AM to 11:30 AM Central; 11:00 AM to 12:30 PM Eastern. As part of its oversight role, U.S. EPA reviews and submits comments on state-issued air permits. This webinar introduces the Region 5 Air Permits Section and how it fits into U.S. EPA's organizational structure. It will describe Region 5's air permit review strategy and what we look for when reviewing permits. The webinar will also highlight some of the most common permit concerns and share examples of how such concerns may be resolved. This webinar is designed for new air permit writing staff of the Region 5 air permitting authorities. We plan to make a recording of the webinar available after the live presentation. Please contact Paymon Danesh at danesh.paymon@epa.gov, or (312) 886-6219 with any questions.

We encourage people to register via the following link: https://epawebconferencing-events.acms.com/content/connect/c1/7/en/events/event/shared/default_template/event_landing.html?sco-id=128523012& charset=utf-8.

Attendees may also use the link and audio conference number below to directly join the webinar on the day of the event: <https://epawebconferencing.acms.com/r5permitreviews>. Audio conference number: (202) 991-0477; audio conference ID: 277473#.

5.) Misc.

Next Call: Monday, September 17, 11:00 AM Eastern
